The Call Must Go Through
—5,000,000 Times a Day!

Year after year the telephone job grows
bigger and more complex. Last year in Penn-
sylvania alone we handled more than 5,000,000
calls a day. And rare indeed was the call that
failed on accuracy, speed or clearness.

One reason for this is fine equipment—
designed and made for Bell System use. But
even more important are the 15,000 Pennsylv-
ania men and women behind the equipment.
They are well-trained and well-paid . . .
eager and able to serve you well.
